The following is an analysis of the Governor's March 1, 2010 Deficit Mitigation Plan (DMP) to assist in the hearing today.

It includes 4 parts:

- I. an overview;
- II. a programmatic impact analysis of the \$81.8 million in expenditure reductions proposed by the Governor (please note: the FY 10 Net column matches up with each item in the Governor's plan) including the rollout of these cuts into FY 11 and any items that were already proposed for reduction in the Governor's Revised budget;
- III. a financial history of each DMP item which is intended to show the level of funding the item was originally provided and how that has changed throughout the year along with the percentage reduction that the DMP is taking from the remaining balance; and
- IV. a programmatic impact analysis of the \$58.2 million in DMP proposed fund transfers.

## I. Overview

The Governor's DMP attempts to close a \$504 million FY 10 deficit as projected by OPM.

Some key points:

- 1) The largest mechanism utilized to close the gap (44% of the total) is a transfer of \$219.2 million in budget reserve funds from FY 11 into FY 10;<sup>1</sup>
- 2) about 20% of the gap is closed with a deferral of payment to the state employees pension fund as allowed by the SEBAC agreement;
- 3) the plan includes \$140.5 million in gross expenditure reductions, however when the loss of \$58.6 million in federal revenue is accounted for as a result of the spending cuts, net reductions total \$81.8 million (16% of the gap);
- 4) the vast majority of the expenditure reductions require legislative approval - only 8.3% can be done within gubernatorial authority;
- 5) 11.5% of the gap is closed with fund sweeps;
- 6) additional anticipated federal stimulus funds account for about 9% of the gap;
- 7) to make up for the \$219.2 million hole in FY 11 created by #1 above, the DMP rolls out some expenditure reductions in FY 10 into FY 11 and institutes additional reductions totaling \$120.3 million (these FY 11 reductions are in addition to those recommended by the Governor in her revised FY 11 budget), additional federal revenue of \$34.2 million and the imposition of a hospital tax yielding \$64.7 million;
- 8) the FY 11 expenditure reductions in the DMP include \$45 million in unspecified municipal aid cuts that would be balanced by mandate relief;
- 9) 62 of the 83 items that make up the \$81.8 million in net reductions in FY 10 were previously included in the November DMP; and
- 10) the 62 items in #9 above total \$41.4 million in this plan but totaled \$72.2 million in the November DMP.

---

<sup>1</sup> The FY 11 budget utilizes \$342 million in budget reserve funds to balance expenditures.

This may result in reduced heating as	Requires Legislation
71	Reduce E-Licensing Carry Forward Funds by 5%	OPM / DOIT		(37,857)		(37,857)			0			0	These funds have been transferred to DOIT. This leaves a balance of \$714,884.	Requires Legislation
72	Reduce Funding for Interstate Environmental Commission	OSC	(48,782)	(19,513)		(19,513)			0	(48,782)		(48,782)	Would reduce by 20% CT's contribution to the commission (currently NY & NJ contribute 45% each, CT contributes 10% to support administration of the commission) although CT has agreed to pay 10%, the state has often not paid this amount in full. To date 3 quarterly payments have been made; account balance is \$24,391.	Requires Legislation

#### IV. March 2010 Governor's Deficit Mitigation: Fund Transfer Impact

		balance as of 3/2/10	Rec. Transfer	Balance after transfer	Impact/Comments
1.)	Biomedical Research Trust Fund	\$ 8,617,153	\$ (6,000,000)	\$ 2,617,153	Would reduce future year awards from Fund; Amount of FY 10 awards should not be significantly affected. <b>Note:</b> At any point in time Fund balance includes significant dollars for prior year obligations not yet paid. Also, 3/2/10 balance does not include annual deposit to Fund (which occurs around April) nor future interest earnings.
2.)	Citizens' Election Fund	\$ 43,032,975	\$ (12,000,000)	\$ 31,032,975	The impact of this sweep is uncertain, pending the cost of the Nov 2010 election. Preliminary estimates of the cost are between \$30 million to \$40 million; if the funding level is deemed to be insufficient, grants to candidates would be reduced. Note that the fund will receive approximately \$18 million in revenue in FY 11 less a \$7 million sweep that is budgeted (net revenue of \$11 million in FY 11).
3.)	Community Investment Act	\$ 32,914,556	\$ (5,000,000)	\$ 27,914,556	Fewer grants would be able to be made for municipal matching grants for Open Space Acquisition (DEP), Historical Preservation (CCT), Farmland Preservation (DAG), and Affordable Housing (CHFA).
4.)	DEP account balances	\$ 11,690,418	\$ (11,690,000)	\$ 418	These funds/accounts were transferred to the General Fund in FY 10. There was no language in implementer bills to transfer these funds into the resources of the General Fund; these funds are just sitting idle at this time. <b>EC Fund = 5,199,024; EQ Fund = 3,468,304; Clean Air Act = 3,023,090.</b>
5.)	Public, Educ, Gov Programming Account	\$ 4,338,007	\$ (2,300,000)	\$ 2,038,007	Grants to local boards of education and local governments to purchase audiovisual equipment in support of public access TV will be delayed or curtailed.
6.)	Stem Cell Fund	\$ 11,864,514	\$ (5,000,000)	\$ 6,864,514	Would reduce 2010 grant awards from about \$9.8 million to about \$4.8 million. <b>Note:</b> At any point in time Fund balance includes significant dollars for prior year obligations not yet paid. Also, 3/2/10 balance does not include annual deposit to Fund (which occurs around April) nor future interest earnings.
7.)	Tobacco and Health Trust Fund	\$ 5,291,869	\$ (5,000,000)	\$ 291,869	Planned FY 10 THTF Board disbursements could be made; FY 11 disbursements would be virtually eliminated. <b>Note:</b> At any point in time Fund balance includes significant dollars for prior year obligations not yet paid. Also, 3/2/10 balance does not include annual deposit to Fund (which occurs around April) nor future interest earnings.
8.)	Emission Enterprise Fund	\$ 507,116	\$ (1,000,000)	\$ (492,884)	This section transfers \$1 million from the \$6.5 million transferred from the Transportation Fund to the Emissions Fund in FY 09 is redirected to the General Fund.
9.)	Reduce GF transfer to Trans Fund		\$ (10,000,000)	\$ (10,000,000)	This section reduces the amount of transfer from the General Fund to the Transportation Fund from \$81.2 million to \$71.2 million. The Special Transportation Fund is anticipated to end FY 10 with a \$13.3 million operating balance. Therefore, reducing the transfer from the General Fund will reduce the balance to \$3.3 million.
10.)	Sweep remaining FEMA Admin Funds	\$ 222,411	\$ (222,411)	\$ -	Prior to the creation of DEMHS, OPM received federal Federal Emergency Management Agency (FEMA) funds for disasters in CT, and administered those funds on behalf of the federal government. Federal rules permitted OPM to use a portion of the funds, at any point in time, for the administrative costs incurred by OPM. Sweeping these funds represents OPM claiming prior administrative costs and thus will be swept and credited as a revenue to the General Fund.
	<b>Total</b>	<b>\$ 118,479,019</b>	<b>\$ (58,212,411)</b>	<b>\$ 60,266,608</b>
